

Journal of Cell Biology (JCB) publishes advances in any area of basic cell biology as well as applied cellular advances in fields such as immunology, neurobiology, metabolism, microbiology, developmental biology, and plant biology. Est. 1955

Impact Factor (IF): 8.891

5-Year IF: 9.362

17 IF rank in Cell Biology

2021, Volume 220

12 print issues

Print ISSN: 0021-9525

Online ISSN: 1540-8140

www.jcb.org

Journal of Experimental Medicine (JEM) publishes papers providing novel conceptual insight into immunology, neuroscience, cancer biology, vascular biology, microbial pathogenesis, and stem cell biology. Est. 1896

Impact Factor (IF): 10.892

5-Year IF: 11.897

4 IF rank in Medicine, Research and Experimental

5 IF rank in Immunology

2021, Volume 218

12 print issues

Print ISSN: 0022-1007

Online ISSN: 1540-9538

www.jem.org

Journal of General Physiology (JGP) publishes mechanistic and quantitative cellular and molecular physiology of the highest quality. Est. 1918

Impact Factor (IF): 4.258

5-Year IF: 4.114

8 IF rank in Physiology

2021, Volume 153

12 print issues

Print ISSN: 0022-1295

Online ISSN: 1540-7748

www.jgp.org

Features

- Daily online article publication and downloadable figures, supplemental material, images, and videos
- Perpetual access to Full text HTML and PDFs
- Seamless off-campus and mobile access
- Split-Screen View: read an article while simultaneously viewing figures and tables, supplements, references, and related links and metrics
- Responsive design for mobile devices
- Email Alerts daily, weekly, and monthly
- COUNTER-compliant reports to track institutional usage
- Article-level metrics to track pageviews and PDF downloads, citations, shares, and Altmetric scores
- Digital archiving of all journal content in searchable PDFs back to volume 1, issue 1
- Archiving in LOCKSS/CLOCKSS and Portico
- Creative Commons licensing
- Article deposit in PubMed Central
- Full text, Crossref, PubMed, and Google Scholar links directly from references
- NCBI database linking
